

# Soil Science

This STEM project compares different kinds of soils and how soil's structure can affect its fauna and flora

MATERIALS:  
GLASS BEAKERS  
SAND  
GARDEN SOIL  
WATER  
CUP

## STEPS:

1: IN ONE BEAKER PUT SAND AND IN THE OTHER PUT SOIL

2: TAKE A HALF CUP OF WATER AND POUR IT IN BOTH OF THE BEAKERS

3: WATCH HOW THE WATER MOVES THROUGH THE TWO BEAKERS. NOTICE THE SPEED OF THE WATER WITH THE SAND AND THE SOIL
