

PUMPKIN CATAPULTS

1. **STACK** 5 craft sticks and secure with rubber bands.
2. **ATTACH** two separate sticks with a rubber band on one end.
3. **SLIDE** the large stack in between the two sticks separating them.
4. **CONNECT** a spoon to the top stick separated by the stack using rubber bands.
5. **PLACE** a candy pumpkin onto the spoon.
6. **PULL** the spoon back and watch the pumpkin fly!

Helpful tip!
Make the stack smaller or larger to change the launch angle of the catapult.
