Your friend gives you a bag of candy hearts for Valentine's Day. Inside your bag, you find:

TRUE
LOVE

## BE <br> MINE

YOU \&
ME

What fraction of "Love You" candies do you have?

Do you have a larger fraction of "You \& Me" candies or "True Love" candies?

Which two candies have the same fraction?

You eat two candies. What fraction of candies did you eat from all the candies?
