

# DIY SKELETON HAND

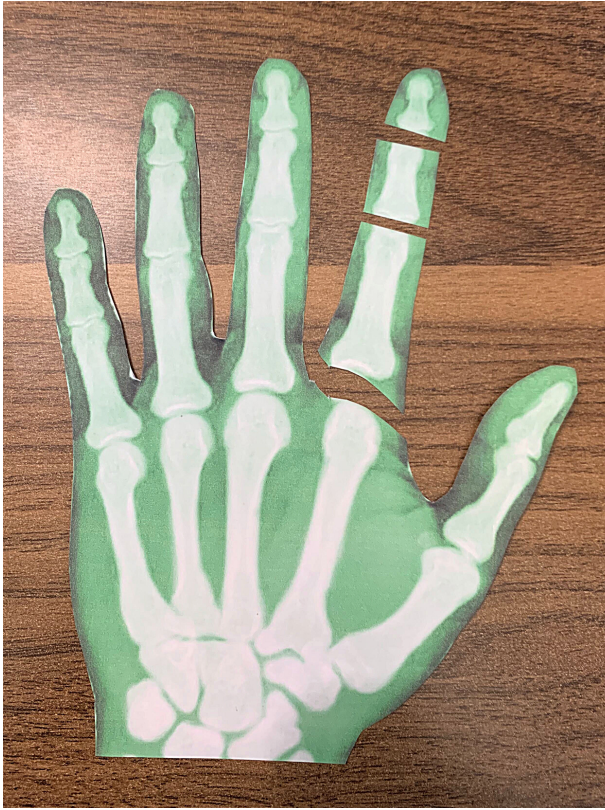

1. **Cut** out the skeleton hand below.
2. **Separate** the phalanges by cutting where two finger bones come together.
3. **Tape** all the bones back together loosely, leaving a small amount of space between them.
4. **Attach** a small straw piece to each finger bone using tape.
5. **String** a ribbon through the straws of each finger, securing the ribbon to the top of the finger.
6. **Pull** the ribbon and watch the fingers move!

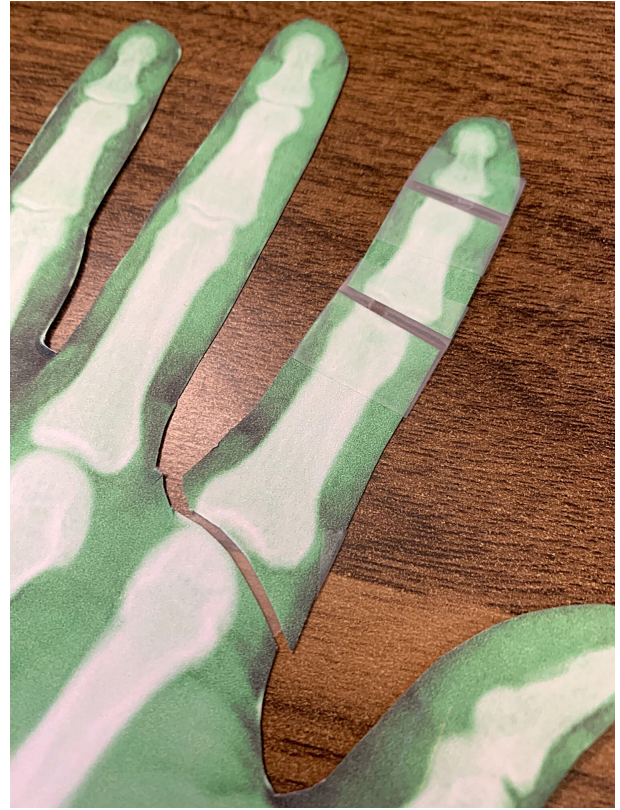

# DIY SKELETON HAND

**CUT AT JOINTS.**

**TAPE BACK TOGETHER.**

**ADD STRAW PIECES.**

**STRING RIBBON THROUGH STRAWS.**
