

2.7 PhET Simulation

1. Rub your hands together
 - Describe what you feel

 - What do you think is happening?

 - What does friction do to molecules?

2. Open the [Friction simulation](#).
3. Rub the two books together.
4. Hit RESET to do this several times
 - What do you observe?

 - Why is this happening?

 - What does friction do to molecules?

 - How did your thinking change after using the simulation?
